# SERVICE

## Customer service

NEWTEC BAG PALLETIZING offers a variety of solutions for customer service and spare parts. We assure immediate customer service and our customers have a specific team of technical specialists at their disposal.

We offer a series of services that are tailored for our customers and they fulfil your needs: service contracts, assistance by telephone, expert assessments, modifications, improved productivity...

## Spare parts

NEWTEC BAG PALLETIZING maintains a stock of 25,000 spare parts. This allows a rapid exchange of necessary parts and assures your production lines keep running.

## Maintenance

All maintenance, conversion and expansion works to your systems are carried out by a specialised team who is authorized to perform the organisation, preparation, or execution of technical works.

With a maximum readiness to help, we can train your technicians and support them with installed systems via Teleservice.

Within the scope of service contracts, we can continuously improve the performance of your systems and reduce downtime.
